Attention: Customer Name

Please review the below Equipment Quotation of BECCA's answer for Solvent applications. We are pleased to quote the following:

BECCA S20A Automatic Solvent Spray Gun Cleaner:

Manual Cleaning:

- **Manual Flow Brush -** Stiff nylon bristles for pre-cleaning tough impacted areas w/ a Flow Control Valve for easy operator adjustment.

Hands-Free Automatic Cleaning:

- **Hands-Free Cleaning Basin** designed to have solvent spray around and flow thru the Spray Gun.
- **Stainless Steel Cleaning Basin** Hands-Free Cleaning Basin is made of stainless steel, large enough to clean two spray guns and cups at the same time.
- **Patent Pending Extension Nozzles** for mounting various Spray Gun configurations and Gun Clips for holding the gun trigger. The unique design helps clean the threaded areas that others cannot.

Spray Gun Cleaner General:

- **Made in USA**
- **Used/Clean Solvent Selection –** Designed to utilize "Used" Solvent for Pre-cleaning & "Clean" Solvent for the Final Rinse reducing solvent use by 50%
- **BECCA Power-Clean™ -** Compressed Air connection with a High Flow QD protecting the air passageways during the cleaning process.
- **Flow Controls** – All of the Fluid & Compressed Air key cleaning tools have flow controls for operator adjustment.
- **High Flow Quick Disconnect** – Specifically for solvent-based materials
- **1- Heavy Duty Diaphragm Pump**.
- **2-year Limited Warranty** – longest in the industry.
- **Solvent Resistant Ultra Powder Coated Finish** over heavy-duty metal construction.
- **BECCA Care™ Service** – BECCA has next day delivery of service parts and a national network of Service Centers across the country to assure the uptime of our systems.

Options:

- **Fume Extractor –** this provides forced ventilation through a duct opening (4") to exhaust fumes from the operator area. Useful in non-ventilated areas. (Ducting by others)
- **5 Gallon Cans** – BECCA has available standard solvent cans to contain the system fluids. 2 are required to use the system.
- **10 Gallon St/St Tanks** (SOLVENTWASH only) – BECCA has available 10 Gallon Stainless Steel Tank w/ sight glass that can work well with SOLVENTWASH Filtration Recycling Systems. This will improve solids dispersion and provide longer life for the filters
- **Protect™ Film –** This is a maintenance film that makes clean-up simple and easy…just peel away the film and apply a new coating.
- **POWERCLEAN™ Kit for 2nd Spray Gun in Automatic Wash Basin** – adds a 2nd compressed air connection in the wash basin for cleaning 2 spray guns simultaneously.

- **SOLVENT SQUIRT Pre-Rinse System –** This system provides the ability to capture the majority of solids separately providing longer life for the spray gun cleaner. These solids then can be placed in the Hazardous Waste drum.
- **SOLVENTWASH™ Single or Dual Cartridge Filtration Recycling System** – Continuous process filtration minimizes labor efforts. Single Includes (1) 75 micron filter Dual Includes and (1) 75 micron filter and (1) 25 micron filter for fluid recycling.
- **TURBO™ Pressure Pot & Fluid Line Cleaner** – This system was designed to handle the cleaning of Pressure pots &/or pressurized fluid lines typically found in large or high production operations. The Turbo action will clean the pots &/or lines to a level that assures success.
- **Carbon Absorption Exhaust System –** (Must select Fume Extractor to work) Some installations cannot accommodate exhaust duct and/or allow VOC's into the environment. This active carbon system will capture those VOC's and their respective odor. Note: replacement is determined by odors emitting from the unit and/or a monitor (not supplied) placed in the area.
- **Extension Tube –** Necessary for Pressure Feed Spray Guns to mount in Automatic Cleaning System

BECCA S20A Solvent Spray Gun Cleaner Price…… $ 3,164.00

Option Pricing:
